The graph shows a step-like decrease in the number of active users over time. The Y-axis represents the number of active users, ranging from 0.0 to 1.0. The X-axis represents time, ranging from 2 to 12. The number of active users starts at 1.0 at time 2, remains constant until time 4, then drops to approximately 0.65 at time 5. It remains constant at 0.65 until time 8, then drops to approximately 0.35 at time 9, and remains constant at 0.35 until time 12.

Figure 1 is a line graph showing the number of nodes in the network over time. The x-axis represents time from 0 to 12, and the y-axis represents the number of nodes from 0.0 to 1.0. The graph shows a step-like decrease in the number of nodes over time, starting at 1.0 and ending at approximately 0.7.
